1 Prepared, measured, and discreet.

Vanguard Elite Protection provides assessment-led personal protection and security support. Each engagement is considered against the principal's context, movement, environment, and required level of discretion before a scope is defined.

DISCRETION FIRST

Protection should support the principal's work, family, movement, and privacy without creating unnecessary disruption.

LOCAL READINESS

Pretoria-based planning and clear operational communication support assignments throughout South Africa.

ASSESSMENT LED

Scope is shaped by practical exposure, priorities, and operational reality rather than a generic package.

DISCIPLINED DELIVERY

Engagements are managed around professional conduct, concise reporting, and reliable communication.

FOUNDER & LEAD CP OFFICER

Philip Dorfling
